the bill as it stood, or else waiting until the Senate is through with the bill and taking up their bill for consideration. The Independents thought that they could come to some agreement, however, during the next three days, and the motion to adjourn for three days prevailed.

The House adjourned a little before 3 o'clock.

**Senate Considers Salaries and Makes Several Committee References.**

After enjoying two days' rest, the solons met at 10 o'clock yesterday morning to renew their attack on the appropriation bill.

With the thermometer hovering about the 80's, and the usual flow of hot air from some of the "gas bags" of the Senate, the honorable members managed to keep themselves and everybody else in a sweltering state.

Senator Kanuha adopted the same tactics he has employed on the previous days of the session in regard to "knifing."

The Republican members had been fighting since the opening of the session to have all doubtful items referred to committees, in order that they might be investigated, but the Home Rule Independent Republican members would have none of it, evidently fearing adverse reports. However, the party with the long name has experienced a change of heart, and is now doing its best to have items referred to committees, seeming to be very anxious to live up to the motto, "Kill Time," which is not very difficult for them to do.

The morning program was opened by the clerk reading a communication from Acting Governor Cooper, notifying them members he had signed House Bill 1, appropriating \$20,000 for the expenses of the extra session, and the unpaid bills of the regular session.

The Governor's message, submitting his appointments, which was set for consideration last Friday, came up, and upon Achi's motion, consideration was deferred until Thursday.

The upper house then tackled the appropriation bill.

The item in the Public Works budget, referring to regular payroll, electric light, asking for \$12,600, was first on the list. Upon Senator Baldwin's motion the item was referred to the committee on public lands.

The salary of poundmaster for Honolulu was reduced from \$840 to \$800. The salary of veterinary surgeon, \$1,200, was referred to the committee on public health.

The pay of lighthouse keepers, \$3,459, was referred to the same committee. The pay of keepers of wharves and buoys at Lahaina and Hilo, passed as in the bill, \$240 and \$1,200, respectively.

The pay of gunpowder and kerosene oil keeper, Hilo, \$1,010; and pay of gunpowder and kerosene oil keeper, at Honolulu, were referred to the committee on public lands.

The salary of the Superintendent of Honolulu Water Works, and clerk of market, \$5,400, caused the first wrangle of the morning.

Senator Kalauokalani moved his usual \$400 reduction, and Kanuha went him \$1,200 better. Senator Baldwin moved to make it \$5,200. Senator Achi moved to pass the item as in the bill. Senator Carter paid a high tribute to Andrew Brown, the present incumbent of the office. Senator Russell moved to cut out the duties of market clerk, and make the item \$4,800.

Upon a show of hands, Achi's motion to pass the item as in the bill prevailed.

The salary of the clerk of this department, \$3,600, passed as in the bill, but the items of salaries of the first assistant clerk, \$2,400, and assistant clerk, \$1,200, were referred to the public lands committee.

The following items were referred to the public lands committee: Pay of reservoir keepers, \$2,640; pay of plumber and assistant, \$2,640; pay of the tap inspector, \$2,184; pay of shipping tenders, one at \$75 and one at \$50, \$3,000; payroll, high lift pump, \$1,900; pay of engineers, \$6,000.

The item of pay of market keeper, \$1,440, was stricken out, and the pay of assistant keeper, \$720, was amended to read: "Pay of market keeper, \$720."

The following items passed as in the bill: Salary of superintendent of Wailuku and Kahului waterworks, \$1,200; superintendent of Hilo waterworks, \$400; superintendent of Koloa waterworks, \$50; and superintendent of Lahaina water works, \$420.

The following items were referred to the committee on ways and means: payroll, government buildings, \$6,000; salary of keeper, museum and grounds, \$780; salary of janitor and keeper Capitol and Judiciary grounds and buildings, \$2,400.

The following items were referred to a special committee composed of Messrs. Crabbe, Carter and J. Brown: Regular payroll, Honolulu fire department, \$82,290; pay of steward, watchman and engineer, Hilo fire department, \$1,080; salary of four pilots, \$19,200; payroll, pilot boats, \$5,000; salary of two assistant harbor masters, \$6,000.

There was a long discussion on the salary of pilots' watchman, Diamond Head, \$1,800; salary of pilots' watchman, pilots' office, \$1,440, but they stood the test.

The salary of Superintendent of Public Instruction was then taken up, and occasioned a lively discussion. Senator Kanuha, the "Jack in the Box," was on his feet in an instant with his usual "slashing" motion. He moved to reduce the superintendent's salary from \$9,000 to \$6,000, adding that the superintendent had little to do, as the normal inspectors took most of the work off his hands. The present superintendent seemed active, he said, but there had been no results.

Dr. Russell inquired if the speaker offered the Senate an instance. He then moved an amendment to read, "Salary of superintendent and inspector for Oahu, excluding Honolulu, \$7,200. Senator Kanuha accepted the amendment."

Senator Baldwin moved to make the amount \$8,000.

Senator Paris supported Dr. Russell's amendment, which carried.

The Senate then took the usual noon recess until 2 p. m.

**AFTERNOON SESSION.**

The afternoon session was short but sweet. The Senate was called to order at 2:10, with eight members present. Senator Kaohi moved to adjourn on the plea "much committee work," which was heartily seconded by "Oily" Bill, who has a penchant for adjourning.

Upon the show of hands, the president declared the Senate adjourned until 10 a. m. today.

or corporation which, by assessment or otherwise, raised or attempted to raise a fund to be used for the purpose of affecting or defeating legislation?

"To which question the said J. A. McCandless replied: 'In my position as Superintendent of Public Works, I held confidential relations with other heads of departments and heard matters that I am not at liberty to divulge.' Being asked again to answer the question, the witness said: 'I refuse to divulge to the Grand Jury the matters so heard, and decline to answer its question. All that I have heard is known to the Attorney General.'

"The witness was then asked: 'Do you know the names of any individual or company of individuals, or of a corporation who bribed, or attempted to bribe, members of the Legislature?'

"I know the names by hearsay and decline to give them; they are known to the Attorney General and the Acting Governor."

**THE PISTOL AND THE BOTTLE.**

The man who has once driven a burglar out of his house with a pistol is likely to keep the weapon handy for use in the future.

On a similar principle Mrs. Elizabeth Langmaid is never without a bottle of Mother Seigel's Syrup where she can lay hands on it any day.

About four years ago she was taken bad with what was called "a complication of complaints." The doctors said she had an abscess on one of her lungs, and also indigestion and heart troubles.

And, seeing how she looked and felt, we should have believed him without a moment's hesitation.

"You can get an idea," she says, "how bad I was when I tell you I lay helpless in bed nearly nine months."

(That does give us the idea and no mistake. Save for the hope of recovery—which seldom quite perishes in the mind—I would as lief be dead, and so have the trouble over and done with.)

"Finally," Mrs. Langmaid goes on to say, "when I got out of bed, all of me that could waste away was gone. I was just a skeleton covered by a skin. In truth, they wrapped me in wadding—for appearance and for such comfort and warmth as the protection might give me."

"Whatever my complaint was I always had a dreadful pain in my sides and under the shoulderblades; but the medicines I took had no more effect on it than so much sweetened water would have had."

"While in this miserable condition, I remembered how different friends of mine had spoken of the virtues of Seigel's Syrup for many kinds of ailments that nothing else seemed able to help."

"Anyway I was sure it would be no mistake to try it, and so I got a bottle from Campbell & Co.'s store in this town. Up to that time I always had a great feeling of weariness and drowsiness after eating, and could not shake it off."

"But to my delight I soon discovered that a dose of the Syrup dispelled this almost immediately, and by the time I had finished the first bottle I was greatly improved."

"As you would suppose, I persevered in taking the remedy until by degrees I got strong again. Gradually, too, I picked up my lost flesh, and recovered my former good health."

Ever since then I keep a bottle of Seigel's Syrup in the house and take a dose whenever I feel out of sorts in any way."

"You may publish this if you like, and I shall always be glad to hear of Seigel's Syrup doing for others what it did for me."

**FOREIGN LABELS AT \$1 A DOZEN.**

The pride that some people feel in having their trunks and traveling bags plastered over with foreign labels amounted almost to a mania with them. It must not be inferred that all of these persons have traveled, for some of them are pretenders. A young Philadelphia lawyer who has recently returned from abroad was telling the other day how he had brought back with him a large collection of these hotel and railroad labels for distribution among his friends. "I had no difficulty in bribing the porters to give me bunches of them," he said.

"When I went over some young fellows I know asked me to do this for them. It has occurred to me that I might turn this particular phase of vanity to good account by advertising the labels and selling them. How would this do? 'Foreign labels for trunks and bags. Make you look as though you had been abroad. Fifty different varieties, at 10 cents apiece; 12, all different, \$1. Send for catalogue. I really believe there would be money in it.'"

**SIEBNER'S QUEER THEORY.**

August Siebner of Waukesha, Wis., believes that he has solved the secret of the solar system. He has invented an instrument which, he believes, will some day make him fabulously wealthy. He has had for some time the idea that there is more than one sun, and by means of his instrument he shows all the way from two to thirty-six suns. The numerous suns appear in a group, one directly above the other. The instrument when placed in another position reveals two suns some distance apart. He says that he can, by means of his apparatus, bring the moon so close to the earth that every line on it is discernible, and he says that it is full of holes. He also tells wonderful tales of the inhabitants. He intends to take his instrument to the State Observatory at Maunaloa.

**EDISON'S DEAFNESS AN ADVANTAGE.**

The Electrical Review says that an ear specialist recently visited Thomas A. Edison and offered to cure him of his deafness. "What!" exclaimed Mr. Edison, "and give up the great advantage I have over you fellows? Why, I need it in my business—for, you see, my business is thinking, and no matter what the rest of you are doing or how much noise you are making, it doesn't bother me, and I am able to concentrate my mind fully upon the subject in hand without interruption. Give up an advantage like that! Not much, until, possibly, I get so old I cannot work any longer."

**THE PHILOSOPHY OF SIMON FROST.**

It's easy to soil a reputation, an' hard to git it clean ag'in; it takes more'n one coat o' white paint to cover up a black spot.

There's lots o' churches that starve their minister so as to send a good-fer-nothin' pauper to some outlandish place as a missionary.

Charity begins at home, an' mighty often it ends there, too.

The feller that fools you the wust is the one that lets you think you're a fool—in him.

All that glitters ain't gold, likewise all gold don't glitter.

Most everybody's natur'ly lazy, more or less, an' the laziest feelers is them that won't own up to it.

Some men's minds are like a weather vane; they're always a-changin' to the way the wind's a-blowin'.

A dawg that stops to scratch a flea won't never ketch a rabbit.

Some wimen wear modesty like they do a silk skirt; they keep it a-rustin' all the time, fer fear folks won't notice it. An' there's other things besides silk that'll rustle, too.

A good man does good merely by living.—Bulwer.

"Why don't you make a specialty of some sort of soup?" inquired the stranger. "Huh! Wouan't never be popular here," replied the proprietor of the Chicago restaurant; "you can't eat soup with a nife."

"They say she has grown quite manly."

Said he who was paying a call.

"Yes; I met her today at the dentist's—She simply can't stand pain at all."
